Subject: Drug & Alcohol Management Information System Reporting
[Docket OST-2002-12435]
RIN 2015-AD14

Greetings

Thank you for the opportunity to respond to the subject Drug and Alcohol Management Information System Reporting, as published in the Federal Register [Docket No. OST-2002-13435] on September 30, 2002. United Technologies Corporation (UTC) is pleased to respond on behalf of its Pratt & Whitney Division, Hamilton Sundstrand Division, Sikorsky Aircraft Division, and Pratt & Whitney Canada Corporation. This response currently includes 42 FAR-145 repair Stations.

After a thorough review of the proposed changes, UTC is pleased the Department of Transportation (DOT) intends to **standardize** the MIS data collection process. We support the DOT's position in that the new changes will **streamline data recording** and will require employers to enter less data. UTC also acknowledges the proposed form contains fewer data elements and will be more easily processed via electronic based systems.

Thank you very much.

Sincerely,

Richard Macklosky
Manager, FAA Antidrug and Alcohol Misuse Prevention Program
